Biafra:

The President desires that the U.S. Government conduct a two track policy line toward the Biafran situation by:

a. Taking high public impact actions designed to reflect our concern for the humanitarian plight of Biafra, including designation of a Relief Coordinator of distinguished stature who is not closely associated with the U.S. Government.

b. Continuing to regard an ultimate Nigerian victory as best suited to the United States interests, yet carefully avoiding political involvement in the uncertain fortunes of either side in the war. At some later point -- as circumstances may warrant -- consideration may be given to offering greater support to the Nigerian Government in return for relief concessions designed to expand the flow of food to Biafra.

[Omitted here are actions concerning the Strategic Balance]
